HOW ABOUT COMBINING INDIAN MOTIFS WITH AN INTERNATIONAL CONTEMPORARY FEEL?

Scour through your heirloom jewellery and don't be shy to mix-n-match... For a sangeet or pre-wedding do try a seasonal stunner - The unusual and graceful shape of a peacock captured in the hand painted majesty of the jeweller juxtaposed with delicate gold ghungroos to symbolize the mood of song and dance. The unique process of electroplating highlights this amazing neck piece. The earth's crust depicted through a dappled texture and gold balls represent water droplets. Enamelled flowers add drama and elegance to this nature-inspired piece.

YOUR SUMMER STYLE GUIDE

Since most of your summer wardrobe consists of light and airy stuff, jewellery is destined to be accentuated during the hot days. Gold linked chains in layers give a chic style statement

Don't be afraid of wearing noticeable chunky jewellery. It's in this summer season, preferably gold mixed with materials such as leather, wood and beads.

If you decide to cut your hair for the summer, drop earrings, which highlight the neck is a key accessory as well.
